REPORT OF THE EVENT

Title of the event : Next Generation Technologies: Internet, Data and Artificial Intelligence
Date of the event : 04.10.2021
Resource person : Dr.R.Nagendran, Associate Professor, Sri Ramakrishna Institute of Technology, Coimbatore
No. of participants : 57

The department of computer science engineering at CMS College of Engineering and Technology for third and final-year B.E. computer science engineering students organized this program. The chief guest gave a wonderful insight into the skills to be developed for better placement opportunities in the future.

Next Generation Technologies: Internet, Data and Artificial Intelligence on 04.10.2021

This program provides an overview of the next generation internet of things, ranging from research, innovation, and development priorities to enabling technologies in a global

REPORT OF THE EVENT

Title of the event : Setup and Manage Private Cloud Infrastructure using open Nebula
Date of the event : 19.11.2021
Resource person : Dr.J J ADRI JOVIN, Associate Professor, Sri Ramakrishna Institute of Technology, Coimbatore
No. of participants : 42

Setup and Manage Private Cloud Infrastructure using open Nebula on 19.11.2021

A workshop on "Setup and Manage Private Cloud Infrastructure Using Open Nebula" was organized by the Department of Computer Science and Engineering. The goal of this seminar was to raise awareness about the skill set required in the modern industry for cloud-based services, as many cloud computing career opportunities have emerged in the job market from their traditional data-centric approach. Almost every type of business is adopting cloud-based models, and cloud computing is expected to grow into a 300-billion-dollar business globally.

REPORT OF THE EVENT

Title of the event : Artificial Intelligence & Technologies Transforming Academia to Industry

Date of the event : 12.04.2022

Resource person : Dr. Kumar, Associate Professor, CMS College of Engineering and Technology, Coimbatore

No. of participants: 57

The Department of Computer Science and Engineering hosted a seminar titled Artificial Intelligence and Technologies: Moving from Academia to Industry. Today's social and economic ecosystems are surrounded by the dynamics of artificial intelligence (AI), from machine learning to smart sensors. Furthermore, the presence of robotics is perceived as a powerful catalyst for industrial productivity and economic growth.

Artificial Intelligence & Technologies Transforming Academia to Industry on 12.04.2022

Coimbatore – 641 032

Artificial Intelligence in association with the other path breaking technologies of the present is increasing the efficiency of people as well as machines in every sector, and particularly in the education sector. Nearly 57 participants benefited from this event. That program enlightened the students about the scope of AI in engineering and how to perspire towards the future.

REPORT OF THE EVENT

Title of the event : Design and estimation of a Building Using Excel Sheet

Date of the event : 21.05.2022

Resource person : Mr. Dinesh Kumar, Assistant Professor, Department of CSE,
CMS College of Engineering and Technology, Coimbatore

Number of participants: 48

Department of computer science engineering of CMS College of Engineering and Technology for third and final year B.E civil engineering students organized this program. The objective of this program is to upgrade the student's design and estimation knowledge and prepare them for industry ready. The analysis, design and estimation of various building structures is a most important skill to be needed for civil engineers.

Design and estimation of a Building Using Excel Sheet on 21.05.2022

The students have studied the design and structural elements and building estimation theory as part of their curriculum. This program's content was created to help participants improve their knowledge of current industry trends. Since the present industry needs engineers to
